## PROFESSIONAL SUMMARY

ICH-GCP Certified Clinical Research Associate with 3 years of hands-on experience in multi-site clinical trial operations, on-site monitoring, site initiation, regulatory documentation, and pharmacovigilance. Proven track record managing all phases of the clinical monitoring lifecycle from Site Qualification and Site Initiation Visits (SIVs) across three hospital sites with 100% GCP compliance and zero major protocol deviations. Skilled in **Source Document Verification (SDV)**, **eCRF data review**, query resolution, **Investigator Site File (ISF)** and Trial Master File (TMF) maintenance, and **Informed Consent** process oversight per **ICH-GCP E6(R2)** and **21 CFR Parts 50 and 312**. Experienced cross-functional collaborator across regulatory affairs, clinical operations, and data management. Proficient in Microsoft Word, Microsoft Excel, **Microsoft PowerPoint**, Medidata Rave, Veeva Vault eTMF, **Oracle Clinical**, and **Argus Safety**.

## CORE COMPETENCIES & TECHNICAL PROFICIENCIES

**Clinical Monitoring & Site Management:** Site Qualification, **Site Initiation Visits (SIVs)**,

**Regulatory & GCP Compliance:** **ICH-GCP E6(R2)**, **21 CFR Parts 50/312/314**, **HIPAA**, **IRB Submissions**, **Protocol Deviations** Tracking, **Declaration of Helsinki**

**Data Review & Quality:** **Source Document Verification (SDV)**, **eCRF Data Entry & Review**, **Query Resolution**, **CDISC Standards**, **CRF Reconciliation**

**Document Management:** **Investigator Site File (ISF)**, **Trial Master File (TMF)** / **Veeva Vault eTMF**, **Informed Consent Forms**, **Audit Readiness**

**Pharmacovigilance & Safety:** **Adverse Event / SAE / SUSAR Identification & Reporting**, **Expedited ICSRs (7-day/15-day)**, **MedDRA v28.1**, **WHO-DD**, **Argus Safety**, **Safety Signal Detection**

**Computer & Software Skills:** **Microsoft Word**, **Microsoft Excel**, **Microsoft PowerPoint**, **Microsoft Outlook**; **Medidata Rave**, **Oracle Clinical**, **Veeva Vault eTMF**, **Argus Safety**, **EDC Systems**

**Clinical Procedures:** **Vital Signs Monitoring**, **Participant Recruitment & Enrollment**, **Adverse Event Identification**

## PROFESSIONAL EXPERIENCE

**Senior Drug Safety Associate | Tata Consultancy Services (TCS) 2024 – Dec 2025**

*Supporting global pharmacovigilance operations for major oncology, cardiology, and gynecology portfolios across APAC and EMEA; managing expedited regulatory submissions to FDA, EMA, and PMDA.*

- **Safety Surveillance & Monitoring:** Monitored and processed 500+ global adverse event cases monthly from active clinical trials and post-marketing sources using Argus Safety Database, ensuring **100% adherence** to FDA, EMA, and PMDA expedited reporting timelines (7-day and 15-day ICSRs); maintained **audit-ready** safety documentation at every stage.
- **Adverse Event Documentation & Causality Assessment:** Executed meticulous documentation and causality assessment of all Adverse Event / SAE / SUSAR cases per ICH-GCP Safety Guidelines (E2A–E2F) and company core data sheets (CCDS); maintained **98% first-pass submission accuracy** across all regulated markets.
- **Regulatory Documentation & TMF Compliance:** Prepared and reviewed periodic safety reports including **DSUR and aggregate safety summaries**; maintained audit-ready documentation in Veeva Vault eTMF aligned with FDA and ICH guidelines.
- **Protocol Deviation & Data Quality Management:** Designed and implemented targeted follow-up **query resolution** protocols for 200+ healthcare professionals and regulatory authorities, consumers improving data accuracy and completeness by 30%; applied **CDISC-aligned** data management standards across the portfolio.
- **Safety Signal Detection & Trend Analysis:** Monitored aggregate safety data to identify potential **safety signal** patterns; performed statistical trend analysis on SAE and SUSAR data across multiple clinical trial populations to support **benefit-risk** assessments and regulatory decision-making.
- **Site Staff Supervision, GCP Training & Onboarding:** Mentored and supervised junior associates on end-to-end case processing workflows, **MedDRA / WHO-DD** medical coding, narrative writing, follow-up procedures, and reconciliation activities; reduced new hire onboarding time by 25% while maintaining team accuracy standards.
- **Cross-Functional Collaboration & Stakeholder Management:** Led **source document reconciliation and validation** for major pharmaceutical clients; coordinated with clinical operations, regulatory affairs, and data management teams across APAC and EMEA regions to ensure compliance with global **pharmacovigilance** SOPs and safety data exchange agreements.

**Drug Safety Associate | Tata Consultancy Services (TCS) 2023 – 2024**

*Processed high-volume global adverse event reports across oncology, cardiology, and gynecology therapeutic areas; supported regulatory submissions to FDA, EMA, and PMDA.*

- **High-Volume Case Processing:** Processed 400+ global adverse event case reports per month across clinical trial and spontaneous reporting sources, consistently achieving 98% first-pass submission accuracy and 100% compliance with **pharmacovigilance** SOPs.
- **Medical Coding Excellence:** Executed precise medical coding for adverse events, medical histories, and concomitant medications using **MedDRA Browser v28.1 and WHO-DD**, maintaining **99% coding accuracy** across all submitted cases.
- **ICSR Preparation & Aggregate Report Contribution:** Managed preparation and quality review of ICSRs for multiple drug products; contributed to **DSUR preparation** by compiling safety data summaries and line listings in **Microsoft Word and Microsoft Excel**.
- **Process Optimization & Workflow Efficiency:** Identified bottlenecks in the case processing pipeline and implemented automation measures for routine quality checks, contributing to a 20% reduction in average case processing time across the team.
- **Literature Surveillance Support:** Systematically monitored published scientific literature for potential **adverse events** and emerging **safety signal** trends per ICH E2F; ensured all relevant safety information was captured, assessed, and escalated for regulatory reporting.
- **Regulatory Submissions & Compliance:** Supported timely submission of expedited and periodic safety reports to FDA, EMA, and PMDA, maintaining a 100% adherence rate with **pharmacovigilance** SOPs and zero late submissions throughout tenure.

**Clinical Research Associate – Genetics | GMERS Medical College & GCS Medical College, Hospital and Research Center 2022 – 2023 | Gujarat, India**

*Managed all clinical operations for an IRB-approved prospective case-control genetic study (100 participants, 3 hospital sites) investigating HLA gene polymorphisms in vitiligo patients.*

- **Multi-Site Clinical Trial Operations & Site Management:** Coordinated comprehensive clinical trial activities across three hospital sites, managing all stages of participant recruitment, screening, enrollment, and retention for a 100+ participant study; applied strict inclusion/exclusion criteria to maintain protocol integrity and data validity.
- **Site Initiation Visits (SIVs) & Site Staff Training:** Led **Site Initiation Visits (SIVs)** across all three medical institutions; supervised and trained 12+ study personnel on GCP principles, protocol requirements, adverse event identification and reporting, and EDC systems achieving **100% GCP compliance**.
- **On-Site Monitoring, Source Document Verification (SDV) & CRF Data Integrity:** Ensured integrity of all clinical data through meticulous eCRF data entry, **Source Document Verification (SDV)**, and systematic **query resolution**; achieved a 95% **query resolution** rate and maintained **HIPAA-compliant** documentation aligned with **CDISC** standards.
- **Informed Consent Process & IRB Compliance:** Coordinated the **Informed Consent** process for all 100 participants per **ICH-GCP, 21 CFR Parts 50/312**, and Declaration of Helsinki; prepared, reviewed, and maintained accurate **ICF** versions and protocol amendments throughout the study lifecycle.
- **Regulatory Document Management & Audit Readiness:** Maintained the Trial Master File (TMF) in audit-ready state with zero major **protocol deviations**; routinely reviewed CRFs, regulatory binders, and essential documents for accuracy and completeness per **ICH-GCP** requirements.
- **Vital Signs Monitoring & Clinical Procedures:** Conducted regular **vital signs** monitoring (blood pressure, heart rate, temperature, respiratory rate) across all participant visits; Oversaw blood sample collection, processing, labeling, and storage per laboratory protocol.
- **Data Analysis & Presentations:** Performed statistical correlation analysis examining HLA-DRB1/DRB4 genotypic variations and vitiligo susceptibility using Microsoft Excel and statistical software.

## EDUCATION

**Master of Pharmacy (Pharmacology) | L.M. College of Pharmacy, Ahmedabad, India | GPA: 3.7 / 4.0**

- Thesis Focus: Polymorphism Study in Vitiligo Patients (Genetics)
- Relevant Coursework: Advanced Pharmacology, Clinical Research Methodologies, Biostatistics, **Pharmacovigilance** Systems, Regulatory Affairs, Preclinical & Clinical Drug Development

**Bachelor of Pharmacy | L.M. College of Pharmacy, Ahmedabad, India | GPA: 3.3 / 4.0 | First Class with Distinction**

- Relevant Coursework: Human Anatomy & Physiology, Pharmacology, Pharmaceutical Chemistry, Pharmacognosy, Pharmaceutics

## CERTIFICATIONS & LICENSURE

- **ICH-GCP (Good Clinical Practice) Certification | NIDA Clinical Trials Network - 2020**
- **Advanced Clinical Research Coordinator Training and Certification (ACRCC)**
- **Registered Pharmacist | Gujarat State Pharmacy Council, India**
- **ICH-GCP (Good Clinical Practice) Certification | CITI Program - In Progress**

## RESEARCH CONTRIBUTIONS & PUBLICATIONS

---

### Primary Investigator – HLA Gene Polymorphism Study in Vitiligo (Multi-Center, 2022–2023)

- Led IRB-approved prospective case-control study across 3 medical institutions (50 vitiligo patients, 50 controls); managed all study operations from participant recruitment and Informed Consent through blood sample collection and **Trial Master File (TMF)** maintenance.
- Conducted next-generation sequencing of HLA-DRB1/DRB4 gene exons; performed statistical correlation analysis for linking genotypic variations to disease susceptibility; prepared findings for peer-reviewed publication.

**Published Work:** *“Novel Targets for the Development of Tuberculosis Vaccine.”* Current Drug Discovery Technology (2025). Joshi R, Sheth D, Beladiya J, et al. DOI: 10.2174/0115701638285518240601075811. PMID: 38859789.
